

INSURANCE POLICY QUESTIONS

Auditory, Speech and Language Therapy

I agree to call my insurance provider and ask the following questions in regards to my policy's coverage of speech therapy.

- Is preauthorization necessary for speech therapy (procedural/CPT code 92507)?
 - If so, what steps must be taken?
- Is there a limit to diagnoses covered?
- What is your copayment?
- Does Fara Augustover and/or Island Wide Speech come up as a participating provider on your plan?
- Is telehealth currently a reimbursable service?
 - If yes, is the copayment waived?
